WORK EXPERIENCE

Software Developer
Idfier Sweden (Remote)
Nov 2024 – Present

- Developed and maintained cross-platform mobile applications using React Native, improving performance and enhancing user experience.
- Built scalable backend services and APIs using Node.js, ensuring smooth data flow and integration with third-party services.
- Worked on Next.js projects to develop fast, SEO-friendly web applications using server-side rendering and static site generation.
- Collaborated closely with design and QA teams to streamline development workflows and improve product quality.
- Applied best practices in modular coding, testing (Jest), and code refactoring to maintain a clean and maintainable codebase.

Backend Developer Intern
CodeInvention Prishtinë , Kosovo (On-site)
Feb 2024 – Jul 2024

- Worked on backend development using ASP.NET, contributing to API development, authentication flows, and database interactions.
- Occasionally assisted with frontend tasks using Angular, implementing components and fixing UI-related bugs.
- Collaborated with senior developers on real-world projects, gaining hands-on experience with full-stack development practices.
- Participated in daily stand-ups and code reviews, improving code quality and team collaboration.
- Gained a strong understanding of RESTful architecture, Clean Architecture patterns, and version control with Git.

SUMMARY

Motivated and detail-oriented Software Developer with hands-on experience in building scalable web and mobile applications. Skilled in React Native, Node.js, Next.js, and ASP.NET, with a solid understanding of full-stack development and RESTful APIs. Passionate about clean code, performance optimization, and continuous learning. Proven ability to collaborate effectively in remote teams and contribute to real-world projects.

RELEVANT SKILLS

Frontend Development:
React Native, Angular, Next.js, HTML5, CSS3, JavaScript, TypeScript

Backend Development:
Node.js, ASP.NET, RESTful APIs, Express.js, C#, SQL

Tools & Technologies:
Git, GitHub, VS Code, Visual Studio, Postman, Figma (for collaboration)

Development Practices:
Responsive Design, Clean and MVC Architecture, Agile/Scrum, Code Reviews, Testing with Jest
